English (Very Good)

SUMMARY

Creative and reliable frontend developer with a solid foundation in building responsive, user-centric web applications. Proficient in modern web technologies including ReactJS and Tailwind CSS, with hands-on experience developing full-scale projects. Comfortable working independently or within teams, and adaptable to cross-functional environments involving DevOps and IT operations.

EXPERIENCE

AsteriskRD Inc - Frontend Developer
Remote

Feb 2024 - Dec 2024

- Built a fully functional e-commerce furniture store using ReactJS and Tailwind CSS
- Developed and maintained the company's main website
- Translated UI/UX designs into responsive, user-friendly interfaces
- Managed frontend state and API integration for seamless data flow

Hasob Integrated Services - DevOps
Remote

Jan 2025 - Present

- Managed and monitored company servers and hosting infrastructure
- Handled CI/CD pipelines and automated deployments
- Ensured high availability and performance of services
- Troubleshoot and resolved issues related to infrastructure and deployment

NCC Emergency Call Center
Physical

April 2024 - Oct 2024

- Monitored server room operations to detect and address downtimes
- Performed routine server checks and maintenance tasks
- Provided call support, assisting with technical queries and issue resolution
- Collaborated with technical teams to escalate and fix persistent issues
